### Washingtonian Temperance Celebration, AT BUCKFIELD, ON THE 220 FEBY.

At eleven o'clock, A. M., notwithstanding the bad state of the roads, more than a thousand people were assembled. A procession was formed, under the direction of Col. A. D. Buck, Jun., which marched from the Village to the meeting house, bearing a beautiful banner, appropriatively inscribed, and presenting, on each side, a portrait of Washington, large as life, -a martial band playing a lively national air. The house was literally filled to overflowing; and a very large number were unable to crowd in. When the spirit-stirring notes of the clarionett and bugle ceased, and the Washingtonian Standard was raised in a conspicuous part of the Chapel, the Exercises proceeded in the following order,-Col. TNDER this title is offered for the patronage and support of the people, a new publication, devoted—as that title indicates—to the defence of the rights and the developement of the nurres of the State and of the individual citizen; and to the free and fearless discussion of principles and measures which affect the relations of one to the other; and of both to the Confederation of

The conductors of the new paper having long been connected with the publis press, in different sections of the Union, a tull knowledge of their fitness for the place in which they appear, is already with the people. Of themselves, therefore, they have only to say, that the Democratic faith which with them has passed the ordest of years of thought and study, has daily grown clearer and stronger by exercise—and this paper, though new to the public, is but the continuation of an effort, to which their whole lives have been and are devoted. For the future, then, they have the highest satisfaction in ap-

pealing to the past ;—while for the past, they have neither explanation to make nor apology to offer.

We consider government in this country, as designed to be simply the AGEST of the popular will ;—that it was intended to be always the servant of the people—never their benefactor, nor then master; that it is instituted for the protection of all, but has no privileges to confer on any;—that the protection it affords should be general, not special—unitary criminate—direct, not remote nor contingent, individuals, not to any classes or distinctive interests,—individuals, individuals, individuals al, not special-universal, not partial-uniform, not dis-

meration of them would weary the patience of the read-er, if it did not compel his utter despair of ever obtaining their correction. Suffice it then for the present to say, that we shall oppose as we ever have done, LEGAL-12ED PRIVILEGE in every form. We shall insist on the absolute and unconditional repeal of all laws that confer it, and the immediate abandonment of all usages that sanction its exercise, or its continuance. Associations, classes or individuals, by whatever political or party name they may be known, who seek it, exercise it, or justify its bestowment, will find no countenance or fayor at our hands; and viewing as we do, its bestowment in any form, as an usurpation of power, we declare against it, in behalf of the people, eternal and uncompromising

In a Constitutional Republican government like ours, the remedy—peaceable, just and efficient—is in the peo-ple. They make the government—from their consent, all its just powers are derived,—and when that consent is directed by MIND, universally educated and intelligent, then, and not till then, is there effectual scaurity for either the State or the people. If the people know their rights, they will wast them—will was them—and will kner them. We hold it therefore, to be the duty of this as of every other State, to establish a system of Universal Education, to provide liberally for its maintainance and to make it the absolute and inalienable birthright of every free white child born or residing within its limits. It is a measure which we believe to be vitally important and necessary, and as is intimated in our title, the earnest advocacy of such a system will constitute an important feature of this " Journal."

The last part of our title has a special as well as a gen eral meaning. The Constitution of Virginia contains provisions more aristocratic, partial and exclusive; more hostile to 'Equality or rights, butter and changes,' which is the first idea of Christianity as of Democracy; and more inconsistent with her own "ancient faith," than that of any other State in this Union. The unjust and arbitrary restrictions on the right of suffrage in every form which privileges raoreary, or distranchises MAN;—the denial to the people of the right of selecting all their agents and officers; and the making of any offices perpetual or self perpetuating,—these are anoma-lies and inconsistencies derogatory to the character of the State and degrading in their influence on the people. But generally-holding as we do, the mours or MAN primary and paramount, -wherever a reform of the laws s inadequate to their complete assertion and maintenance, or impracticable from the interposition of Constitutional obstacles, we shall always be found the advo-cates of "Constitutional Reform,"

we designed-of what is intended to be the EDITORIAL character of our paper. We shall look ever to the political and social rights and interests of man AS MAN. With us the rights of all are equal, but the interests of the producer are paramount to those of the ACTUNICA. TOR, as man is worth to the world more than money. The FARMER and MECHANIC will therefore, find an ir portant part of our paper devoted to their cause and designed to assist them forward to the attainment of their true position and influence in the State and in society To the LADIES DEPARTMENT, particular attention will be directed; and THERE will always be found a choice selection from the current Literature of the day. A general summary of important Foreign and Domestic News, will also be furnished;—and with this we complete the enumeration of its essential features.

It may be that we hope for a larger patronage than we shall deserve;—but we shall strive to deserve more than we dare to hope.

Terms :- Two Dollars per annum, payable invariably

THE RESURECTION,

THISSE Fills raise from the greatest weakness, distress, and suffering, to a state of strength, health, and happiness. The same of these pills originated from the circumstance of the medicine being found only in the cemeteries of Peraise. This regional production being of a peculiar kind, led to experiments as to its medical qualities and virtues. In half a century it became an established medicine for tha disease, when knows better how to prize the blessing, than those who periments as to its medical qualities and virtues.
